

**REMARKS**

Applicant has amended the claims which were previously pending to more clearly point out and distinctly claim the subject matter of the invention. It is noted that a Terminal Disclaimer has been provided. The claim is believed to be clearly distinguishable from the litany of Letica references heretofore cited inasmuch as none of those references depict the structure of an inwardly inclined wall connected with a vertical wall which, in turn, is connected to a horizontal flange upon which a vertical rim is positioned. The so called inset walls, such as inset wall 36 in the Letica references, is not horizontal. It is angled and extends upwardly and outwardly.

In view of the foregoing, Applicant respectfully requests examination of the claims as now presented and passage thereof to allowance.

Respectfully submitted,

BANNER & WITCOFF, LTD.
